Total landed EUR 32862.66

Confidence tier B

· HS classification confidence is high

Disclaimer

This dossier represents OrcaTrade's calculator-grounded compliance assessment as of 2026-06-15. Duty rates, applicability verdicts, and regulation references are based on the customer's stated intent + the resolved HS classification. Final classification for customs filing requires confirmation against the 8-10 digit TARIC code by your customs broker, supported by a Binding Tariff Information (BTI) ruling for high-volume SKUs. OrcaTrade does not warrant fitness for filing without verification.
